Welcome to the Professional Guidance Report

Given Name(s) and Family Name: Maica Ramirez .

Report date: 12/11/2018

Copyright 2011, PSICÓLOGOS EMPRESARIALES S.A.

Introduction CIP

This report was prepared from the answers and exercises carried out by Maica Ramirez ..

The fundamental objective of this report is to provide support to the guidance provided to Maica Ramirez . regarding the professions and/ or professional careers for which he/ she demonstrated special interest and/ or preference in the answers provided in the QPI questionnaire, and assist said person in becoming better acquainted with the capabilities that could favour the success of the selection made or that would, alternatively, entail some level of difficulty.

Report contents**Section 1: PREFERRED PROFESSIONAL AREAS**

The first section of the report displays a graph that identifies the level of interest (in percentage) the person showed towards general professional fields/ professional careers which have been evaluated.

This graph incorporates a short written summary identifying, on the basis of quantitative data obtained, the careers and/ or activities that would be priority or more motivating for Maica Ramirez ..

Section 2: AREAS OF APTITUDE

This section represents the scores obtained in the aptitude test carried out by the student (performance in the test) in a percentile scale. This final score represents the percentage obtained (ranging from 0 to 100) or similarly the comparison of the results obtained with a significant sample of students of similar ages and academic characteristics.

Section 3: PROFESSIONAL GUIDANCE

This section includes information relating to careers or activities related to the capabilities which Maica Ramirez . demonstrated to be special strengths and those which, on the basis of the performance indicators obtained, could imply some type of difficulty.

Motivation for a concrete professional sphere constitutes an essential element for later success. Nonetheless, the fact that the person has certain capabilities or aptitudes, favours or increases the possibilities of fast assimilation and learning of concepts and/ or skills associated with careers and professions the person would be keen to work in in the future.

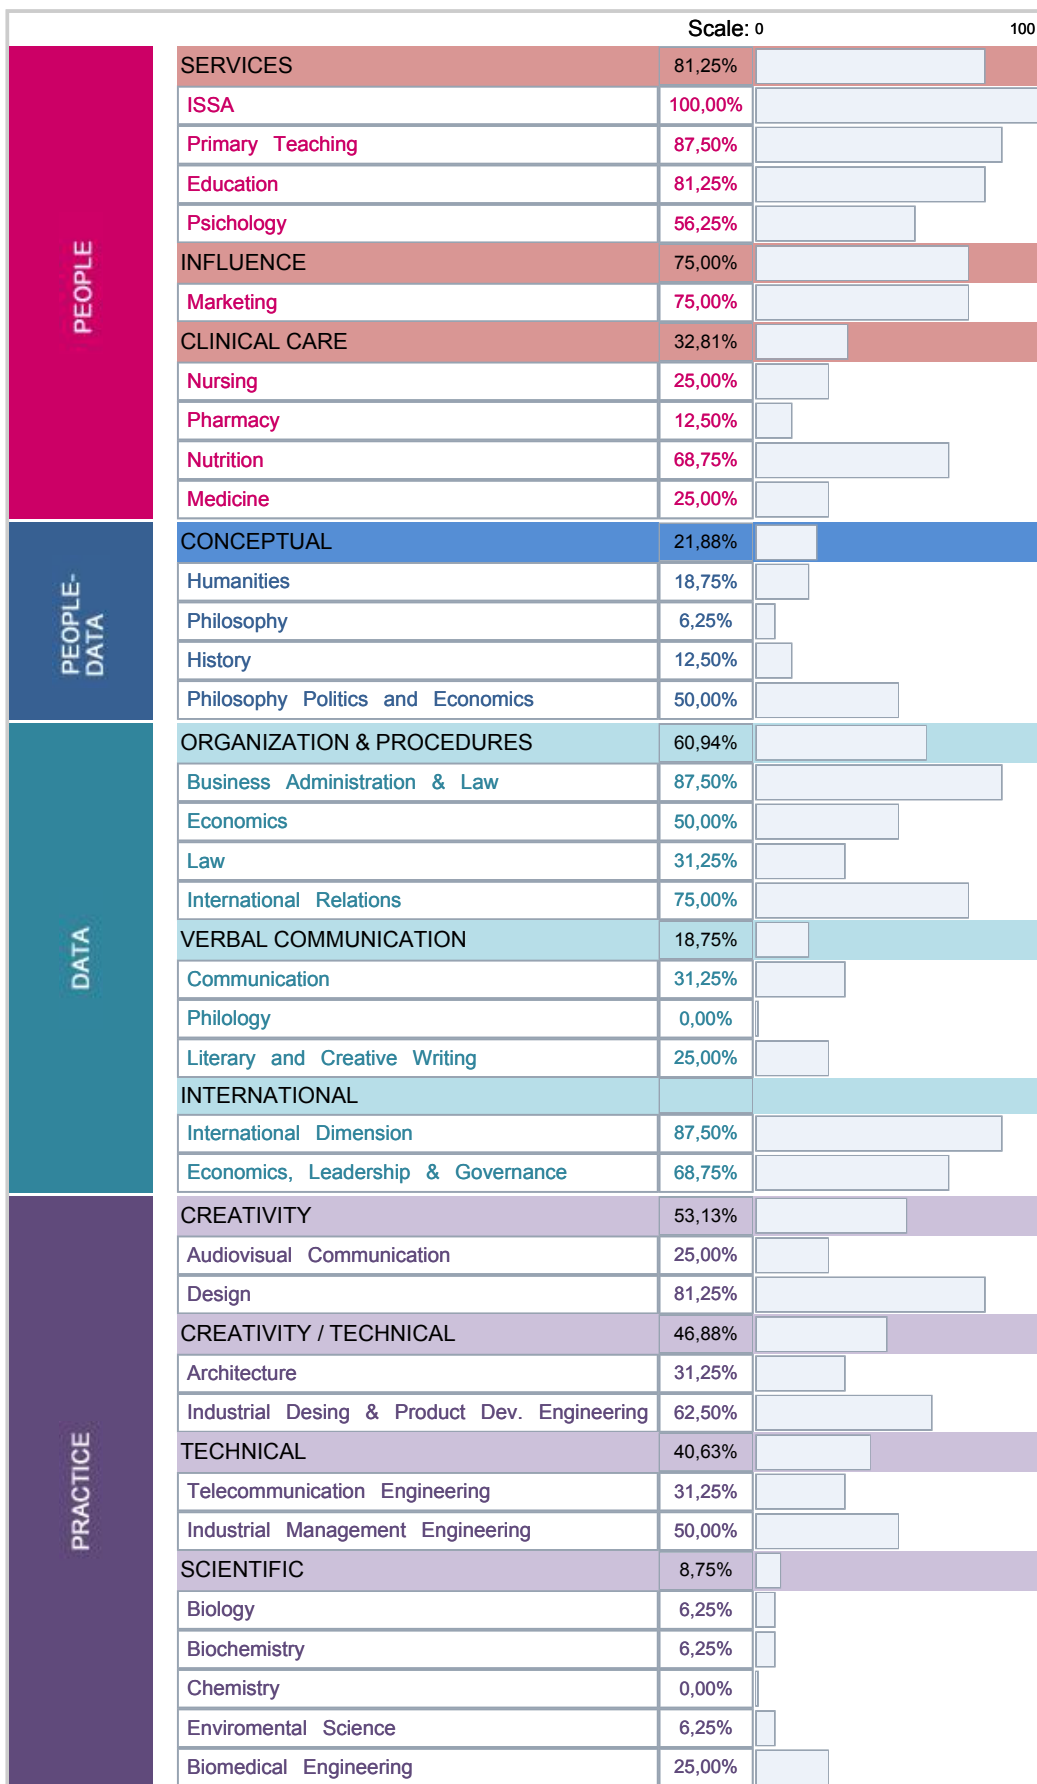

The integration of both aspects allows for an enriched vision that would be of great assistance in making appropriate decisions. For this reason, the report provides a qualitative interpretation that associates both parameters (Interest + Ability) to establish with more accuracy what Maica Ramirez .'s potentials are

Section 4: SKILLS

This section is optional and will only appear in the report if the test required for this assessment was carried out.
